Soft skills: Communication, Documentation, Planning, Problem-solving, Teamwork, Mentoring

WORK EXPERIENCE

Packaging Personified, Inc.

October 2025 - Current

Software Engineer

- Developed and maintained internal business applications using Retool, PostgreSQL, SQL, and JavaScript across production, compliance, accounting, and operations teams.
- Built the Yield Report application to track company and customer job performance, analyze material usage, and improve operational visibility.
- Consolidated Excel files and multiple data sources into EPA reporting tools supporting both Illinois and Michigan compliance workflows.
- Created shared applications and modules, including a standardized Header Module and scalable Location Swap application, to improve consistency and reuse across Retool apps.
- Improved application and workflow performance by optimizing queries, streamlining logic, preventing errors, and preserving existing functionality, including a 40%+ speed improvement to Press WIP.
- Used AI-assisted planning and verification to structure development work, validate implementations, and improve application performance, usability, and reliability.
- Trained managers, developers, company owners, and end users on Retool functionality, application workflows, and development best practices.

Sweetwater Sound Inc. – Fort Wayne, Indiana

May 2021 – August 2025

Software Engineer

- Sole developer on the implementation of Avalara's Exemption Certificate Management System (ECMS), saving Accounting's tax team the equivalent of 160+ hours of validating tax exemption certificates per month.
- Integrated PayPal's GraphQL-based Braintree system into the Customer Relationship Management (CRM) system to help launch Gear Exchange, which saw over \$1M in sales between users within its first few months.
- Built and deployed a Price Management Platform used by merchandising to adjust pricing dynamically - this resulted in \$4M in increased revenue in under a month.
- Provided a Turkey Handout application for Sweetwater's Thanksgiving turkey giveaway within 72 hours, allowing the campus events team to handout turkeys/gift cards to the 2,500 employees.
- Contributed to internal software development by designing scalable features, debugging production issues, and delivering tools used daily across multiple departments.

Zimmer Biomet – Warsaw, Indiana

October 2020 – May 2021

Information Technology Intern

- Imaged and prepared company devices with software for deployment.
- Issued laptops, accessories, and performed hardware upgrades for onboarding and refreshing hardware.
- Used a company vehicle to deliver the devices to various campuses in the Warsaw area.

United States Census Bureau – Warsaw, Indiana

January 2020 – October 2020

Post-Enumeration Surveyor

- Performed interviews at addresses within assigned blocks to collect population data as part of the Post-Enumeration Survey (PES), ensuring census accuracy.
- Complied with strict federal guidelines and confidentiality rules for gathering demographic and information related to housing.
- Recorded information using a government issued laptop, maintaining hour logs, mileage, and case activity.
- Navigated difficult or uncooperative situations by calmly diffusing tensions with hesitant or hostile residents.

Staples – Warsaw, Indiana

June 2018 – May 2019

Technology Sales Associate

- Asked customers pertinent questions to assess and determine their needs, guiding them to the correct product.
- Answered questions, explained product features, and gave honest output based on customer input.
- Used Staples sales strategies to become the number one store in Northern Indiana for several week straight.
- Stay up to date on weekly promotions and product launches to best support customers and hit sales goals.
